WHO

The World Health Organization (WHO) is a specialized agency of the United Nations which coordinates responses to international public health issues and emergencies. It is headquartered in Geneva, Switzerland, and has six regional offices and 150 field offices worldwide. Only sovereign states are eligible to join, and it is the largest intergovernmental health organization at the international level.

“The main purpose of the World Health Organization (WHO) is the attainment by all peoples of the highest possible level of health.”

The emblem of the World Health Organization (WHO) was chosen in 1948

Headquarters: Geneva, Switzerland

Founded: April 7, 1948

Founders: United States, United Kingdom, France, Brazil

Parent organization: United Nations

"Mental health is just as important as physical health—prioritize both."

Sofia The First

[Home](#) [Images](#) [Videos](#) [Products](#)

Introduction

Sofia the First is an animated fantasy children's series created by Craig Gerber for Disney. It follows Sofia, a peasant girl voiced by Ariel Winter, who becomes a princess after her mother marries the King of Enchancia. The show highlights her adventures and friendships, particularly her ability to communicate with animals through a magical amulet. Gerber aimed to reflect relatable themes for modern children, particularly through Sofia's adaptation to new situations as a child of a single mother. The pilot premiered on November 18, 2012, and the series ran from January 11, 2013, to September 8, 2018.

Plot

A young girl named Sofia and her mother Miranda transition from a peasant life to royalty after Miranda marries King Roland of Enchancia. Sofia embarks on various adventures with her new family, including her step-siblings Amber and James, and attends royal school under the guidance of Flora, Fauna, and Merryweather. She receives the Amulet of Avalor, which grants her special powers, including communication with animals and the ability to summon past princesses for assistance. Cedric, the royal sorcerer, attempts to steal the amulet to usurp the throne but eventually has a change of heart. In later seasons, Sofia discovers a secret library from Aunt Tilly and becomes the Protector of the Ever Realm after defeating the evil crystal master Prisma and the sorceress Vor, completing her journey with the responsibility of ensuring happy endings for unfinished stories.

Cast and characters

Main article: List of Sofia the First characters

Ariel Winter as Sofia

Wayne Brady as Clover

Darcy Rose Byrnes as Princess Amber

Zach Callison (seasons 1–2), Tyler Merna (seasons 2–3) and Nicolas Cantu (seasons 3–4) as Prince James

Sara Ramirez as Miranda

Miraculous: Tales of Ladybug & Cat Noir

Home Videos Merchandise

Introduction

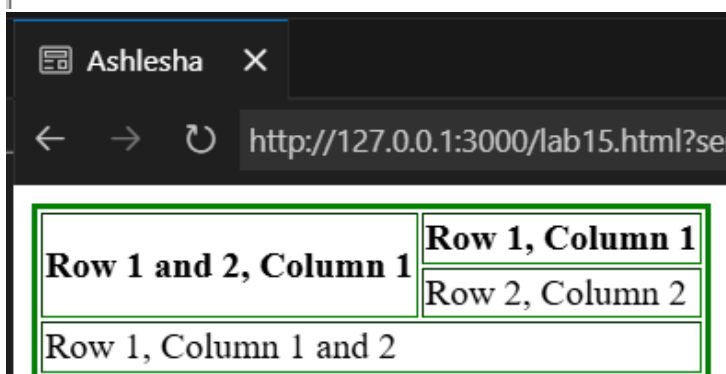

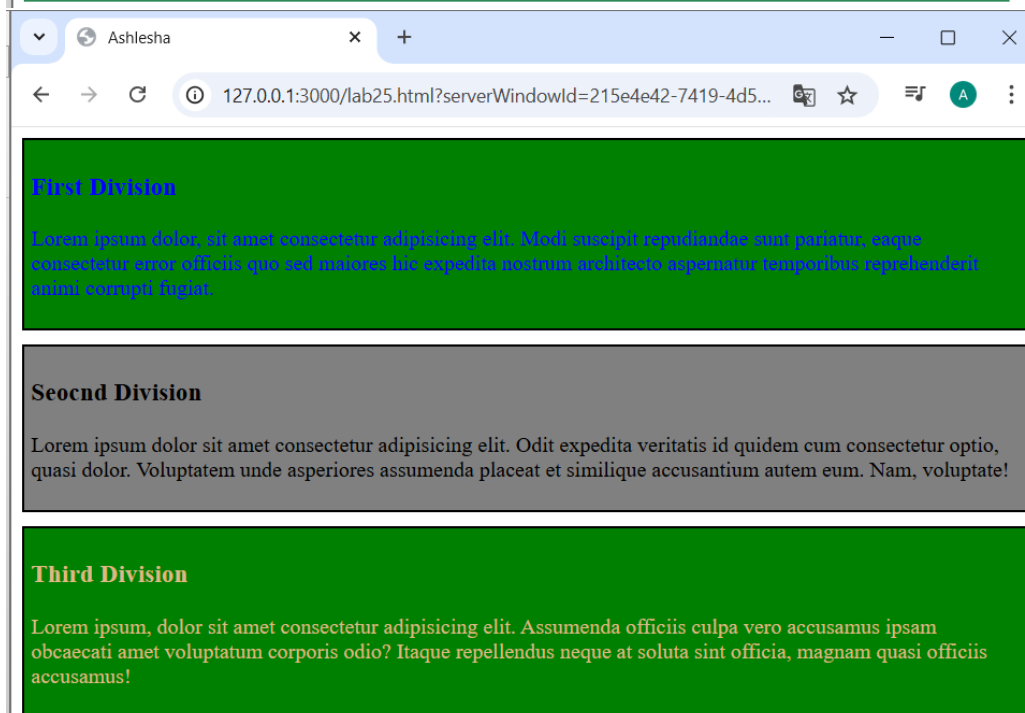

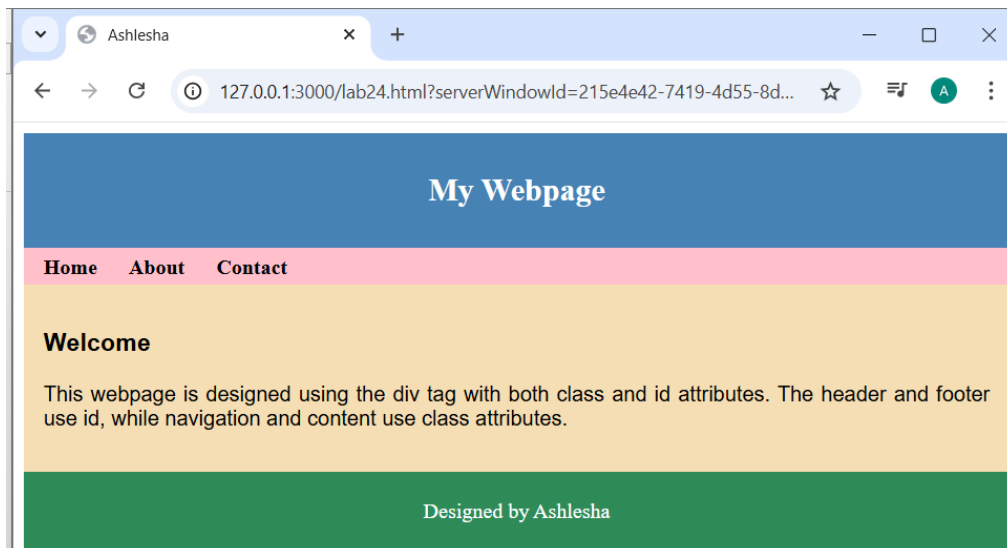

Miraculous: Tales of Ladybug & Cat Noir (French: *Miraculous, les aventures de Ladybug et Chat Noir*) is a French CGI action/adventure animated series produced by ZAG Entertainment and Method Animation, in co-production with Toei Animation, SAMG Animation, and De Agostini Editore, as well as several international companies. It features two Parisian teenagers, Marinette Dupain-Cheng and Adrien Agreste, who transform into the superheroes Ladybug and Cat Noir, respectively, to protect the city from supervillains.

Before its debut in France on 17 October 2015, on TF1/TFX's TFOU block, the series was first shown in South Korea on 1 September 2015, on EBS1. Internationally, it is mainly broadcast on Disney-owned channels or on Disney+, with exceptions in some countries.

The series focuses on two Parisian teenagers, Marinette Dupain-Cheng and Adrien Agreste, who transform into the superheroes Ladybug and Cat Noir, respectively, to protect the city from supervillains created by their main antagonist, Hawk Moth.

French: *Miraculous, les aventures de Ladybug et Chat Noir*
Genre: Superhero Magical girl
Created by: Thomas Astruc
Developed by: Jeremy Zag
Written by: Thomas Astruc
Directed by: Thomas Astruc, Christelle Abgrall (S2), Jeremy Paoletti (S2), Benoît Boucher (S2–3), Wilifried Pain (S2–3), Mr. Jun (S2–3)

Lab sheet 1

HTML

1. Design a webpage by writing “This is my First web page” with proper HTML Structure.
2. Design a webpage showing the use of heading tag(<h1> to <h6>) with background color “blue” and text color “red”.
3. Design a webpage showing the use of tag by using the attributes size and color.
4. Design a webpage with three paragraphs with left, right and center alignment respectively. The color of first, second and third paragraph should be different as your wish. Also draw horizontal line between each paragraph.
5. Design a webpage showing the use of Text formatting tags.
6. Try to make this design using Heading and text formatting with proper attributes:

Welcome to my webpage!

This is some regular text.

This is **bold** text.

This is *italicized* text.

This is underlined text.

7. Create two hyperlink using <a> tag like below and also *tells the browser to open the link in a new window or tab.*

[Click me for visiting gmail!](#)

[Click me for filling up form!](#)

8. Display Image on a webpage using tag with its proper attributes like (src, alt, height, width and title).
9. Display Favicon next to the page title in the browser tab.
10. Design a webpage using unordered list, ordered list and description list like given below:

An unordered HTML list

- Coffee
- Tea
- Milk

An ordered HTML list

1. Coffee
2. Tea
3. Milk

A Description List

- Coffee
- black hot drink
- Milk
- white cold drink

11. Design a webpage using nested list like given below:

1. Item 1
 1. Subitem 1
 1. sub item lists
 2. Subitem 2
2. Item 2
 1. Subitem 1
 2. Subitem 2
3. Item 3

12. Design a webpage using HTML Quotation and Citation Elements like<abbr>, <address>, <bdo>, <blockquote>, <cite>, <q>.

13. Design a webpage using HTML <table> tag like below:

Name	Country	Age
Peter	USA	21
Sam	Mexico	23
John	Spain	25

14. Design a webpage using HTML <table> tag like below:

Name	Country	Age
Peter	USA	21
John	Spain	43

15. Merge table using rowspan and colspan attribute like below:

Row 1 and 2, Column 1	Row 1, Column 2
	Row 2, Column 2
Row 3, Columns 1 and 2	

Part 2

16. Design a webpage using <form> tag like below:

Name:

Email:

Password:

Gender: ☒ Male ☐ Female

Country:

17. Design a webpage using <form> tag like below:

XYZ College of IT
